

NGUYEN THI HOANG YEN

Data Analyst intern

Ha Noi, Vietnam ◇ 0368- 037 - 514 ◇ hoangyen.flaneur918@gmail.com

OBJECTIVE

Final-year MIS student with strong skills in Python, SQL, and Data Analysis. Seeking internship to apply technical expertise in building data-driven solutions and delivering business insights.

EDUCATION

Hanoi University of Science and Technology (HUST) 2022 - present
Bachelor of Management Information System (Expected Graduation: July 2026)
Overall GPA: 3.66 / 4.0

DATA ANALYST PROJECTS

Database Management System for Airline Industry July 2024
· Designed normalized DB (11 tables, BCNF), developed 41+ stored procedures.
· Optimized queries on 54M+ records (98% faster). Automated TSV bulk data loading (35s/file).

Stock Price Forecasting with Deep Learning May 2025
· Built RNN, LSTM, GRU models with technical indicators for VN30, HPG, SZC.
· Improved forecast accuracy; LSTM/GRU outperformed baselines.

ACHIEVEMENTS & ACTIVITIES

Academic Excellence Scholarship (3 consecutive semesters: 2023.2, 2024.1, 2024.2)
Certificate of Excellence for outstanding academic performance (Faculty of Mathematics – Informatics, 2023.2)
Commendation by HUST Director for excellent academic results and contributions to student activities (2023–2024)
Awarded by HUST Youth Union for outstanding achievements in youth and community activities (2023–2024)

SKILLS & LANGUAGES

Languages & Technologies	Python, Jupyter, Pandas, NumPy, Matplotlib, Seaborn, TensorFlow, Keras, Excel (Pivot Tables, Data Analysis)
Databases	MySQL, SQL Server
Language Skills	English (IELTS 6.5 – CEFR B2), Vietnamese (Native)
Soft skills	Problem-Solving, Teamwork, Presentation
